WITH THE HIGHEST LOAD AREA, URETHANE THAT FAR EXCEEDS INDUSTRY STANDARDS AND A **UNIQUE HARDNESS PROFILE DESIGN** FOR ENDURANCE, THE ST9 XGEN SEAT + VALVE WILL HAVE THE COMPETITION SITTING OUT.

	SIZE :	5"	5"	3.5"
---	--------	----	----	------

Everyone claims to have the best seat and valve on the market. But until they have been tested back-to-back, there is no proof or data – until now. Designed by industry experts, ST9's XGen Seat and Valve have completed independent testing by top service companies across varied frac applications that show our products outperform competitors by 33% for life and 36% for cost.

THE ST9 XGEN SEAT & VALVE ADVANTAGES:

- > Maximum load bearing area
- > Polymers developed specifically for fracking
- > Optimized profile ratio
- > Profile designed for laminar flow and cavitation reduction
- > Hardness profile guaranteed
- > Concentric leg design for operational stability
- > Unrivalled quality control systems

APPROVED : 

ST9'S GOAL is to be the industry leaders for performance, cost and quality. We have taken incredible measures to obtain this goal and continue to develop even more high-performance products to ensure our customers' competitiveness in the future.
